

## Livin' The Corolla Vida

27 July 2000

### Limited Edition for Summer 2000

In the midst of British summertime, through the wind, drizzle and black clouds many of us are tempted by the lure of sunny Spain. Toyota is offering a Latin alternative to going barmy in the Balearics with a Limited Edition Corolla Vida to add a little bi' of sizzle to your summer.

The Limited Edition Corolla Vida joins the new Corolla range for 2000 employing intelligent technologies for a better drive and an exciting value for money package and a reassuring purchase. Corolla Vida is available in three forms: 1.4 litre VVT-i engine in both three door hatchback and five door liftback body styles, and an automatic transmission is available with 1.6 litre VVT-i five door liftback.

#### DO YOU KNOW YOUR SOMBRERO FROM YOUR BOLERO?

There's no need for muscles like Zorro with standard electric front windows and power steering. Air conditioning, also fitted as standard, keeps you cooler than a piña colada while you shimmy to salsa or mellow to la musica with the latest CD/RDS tuner system.

Clasp onto your castanets, Corolla Vida boasts all the usual Corolla features, such as:

High tech, low maintenance petrol engines in 1.4 litre and 1.6 litre with Toyota's VVT-i system

Improved handling through stiffer body construction

Integrated multi-function dashboard display

Affordable turn-by-turn satellite navigation system optional

Engine immobiliser and central locking standard

Low insurance group and competitive replacement parts

Toyota Drive Plans: Peace of mind purchasing and servicing

On-the-road prices from £9,995

On sale through July, August and September

**ECONOMY EXCELENTE!**

The 1.4 litre VVT-i engine in Corolla Vida is one of the most advanced available in the segment offering best power in its class at 95bhp at 6,000rpm. Thanks to its superb torque characteristics and advanced VVT-i technology, fuel consumption is exceptional for an engine of this performance.

Low fuel consumption and excellent performance means you can cruise the streets of Seville,

accelerate over Andalucia and still have enough juice to head off for Tapas with Tonto at 49.6mpg on the extra-urban fuel cycle!

**SAFE & SECURE? SI, SI, SI SEÑOR!**

Safety and security are not compromised on the Limited Edition Corolla Vida. Engine immobiliser and central locking come fitted as standard for the comfort and convenience of driver and passengers. Twin front airbags and five, three point seatbelts (the front ones with pre-tensioners and electronic force limiters) are also standard on Corolla Vida.

**MORE PESETAS FOR YOUR POCKETS**

Toyota is continuing to explode the myth that its replacement parts costs are expensive and will offer more pesetas for your pockets with competitive replacement parts pricing. Replacement of front and rear crash parts is significantly cheaper in the Corolla Vida compared to Peugeot 306 and Honda Civic.

And mucho más...maintenance costs are kept low as the advanced VVT-i engines in new Corolla (including Corolla Vida) do not require a first/one thousand mile service and full services are only required every 20,000 or two years.

**ARRIBA ARRIBA WITH TOYOTA DRIVE PLANS**

Toyota Drive Plans are a fresh new approach to offer customers easy and affordable ways to drive and maintain the Toyota of their choice.

Easy Start - Low start financial package with a personal contract purchase plan and only one rental payment in advance. Appeals to young buyers with no or little deposit.

Easy Drive - including a servicing package and insurance option. Appeals to private and individual customers who have a fixed motoring budget.

Easy Care - Stand alone pre-paid servicing plan purchased by 10 monthly direct debits and mileage options up to 40,000 per annum.

Business Drive - Fully maintained Contract Hire package. Attracts business buyers.
