

Toyota Announces Specifications and Prices for its New, All-Hybrid C-HR Crossover

6 November 2019

- The Toyota C-HR crossover becomes an all-hybrid range with a choice of upgraded 1.8 and new 2.0-litre self-charging hybrid powertrains
- Available in Icon, Design, Excel and Dynamic equipment grades
- Smartphone integration via Apple CarPlay™ and Android Auto™ standard on all versions
- New Orange Edition version available in strictly limited run of 500 examples
- On-the-road prices from £25,625
- Full press information, specification tables and high-res images and video footage are available to view and download on the Toyota UK media website [here](#)

Toyota's C-HR crossover has undergone its first important updates since its launch in 2016. Well-established as one of the brand's best-selling models in the UK, it now boasts an all-hybrid line-up and benefits from new equipment features and dynamic improvements.

It follows the new Corolla in adopting Toyota's dual hybrid strategy, giving customers the choice of a new-generation 1.8-litre hybrid system or a more powerful, all-new 2.0-litre powertrain.

Engines and performance

The new C-HR is unique in its class in giving customers the choice of two different hybrid powertrains. The established, 120bhp 1.8-litre hybrid system remains in the range, but with its eco performance enhanced by an upgrade to a lithium-ion high-voltage battery and by size, weight and efficiency improvements in all its principal hybrid components. CO₂ emissions start from 86g/km (NEDC correlated data)/109g/km (WLTP data).

The additional powertrain is a new 2.0-litre system that produces 182bhp, with CO₂ emissions from 92g/km (NEDC correlated data)/119g/km (WLTP data). It features an all-new 2.0-litre petrol engine that achieves a maximum thermal efficiency of 41 per cent – the world's highest level for a mass-produced engine – which means more of the energy potential in every drop of fuel is captured.

As well as greater power and higher efficiency, the 2.0-litre hybrid versions of C-HR benefit from updated suspension and improved noise and vibration countermeasures.

Full technical data is available [here](#).

Multimedia system with smartphone integration

The new C-HR introduces Toyota's latest developments in connectivity and infotainment. Its new, 2019 multimedia system incorporates Apple CarPlay™ and Android Auto™, allowing the most commonly used smartphones to not just synchronise, but actually merge with the car's media-system.

Provided as standard equipment, this also enables over-the-air map updates for the navigation system. Toyota provides a free three-year subscription for updates (available every six months) on every new C-HR.

Equipment grades and features

The new C-HR follows the model's established grade structure in the UK. Entry point is the Icon, offered exclusively with the improved 1.8-litre self-charging hybrid system, followed by Design grade, which can be specified with either the 1.8 or new 2.0-litre hybrid powertrain.

Excel and Dynamic grades share top-of-the-range status, their specifications tailored to suit customer preferences for luxury, high technology and sharper styling details.

Orange Edition

The new C-HR is launched with a special Orange Edition model, finished in dedicated Scorched Orange paintwork with contrasting 18-inch matt black alloy wheels and black bi-tone roof. In addition to the Excel equipment specification, it also comes as standard with the JBL premium audio system. The Orange Edition is powered by the new 2.0-litre hybrid system and availability is limited to just 500 units.

Equipment highlights

Icon grade is equipped as standard with: -

- 17-inch alloy wheels
- Reversing camera
- Dual-zone automatic air conditioning
- 2019 multimedia system with touchscreen
- Apple CarPlay™ and Android Auto™ smartphone integration
- Toyota Safety Sense
- LED reflector headlights

Design grade builds on this specification with: -

- 18-inch alloy wheels
- Rear privacy glass
- Piano black console
- Rain-sensing windscreen wipers
- Intelligent Clearance Sonar with auto brake, front and rear parking sensors
- Auto-dimming rear-view mirror
- Heated front seats with power lumbar adjustment
- Navigation system
- Smart entry
- Heated, auto-folding door mirrors

- Simple Intelligent Park Assist

The C-HR **Dynamic** introduces: -

- 18-inch Dynamic alloy wheels
- Rear Cross Traffic Alert with auto braking
- Blind Spot Monitor
- Adaptive LED lights front and rear
- LED fog lights
- Puddle lights
- Metallic paint and black bi-tone roof

The **Excel** grade adds to the Design specification with: -

- 18-inch Excel alloy wheels
- Rear LED lights
- Adaptive LED headlights
- LED fog lights
- Door mirror puddle lights
- Adaptive Front-lighting System
- Heated steering wheel
- Leather seat upholstery
- Power driver's seat adjustment
- Rear Cross Traffic Alert with auto braking
- Blind Spot Monitor
