All-new Toyota Land Cruiser Commercial

- UK factory conversion of the new generation Land Cruiser
- A new halo model for the Toyota Professional range of light commercial vehicles
- Single-model range – five-door long wheelbase with load capacity up to 2,000 litres
- Significantly higher equipment specification compared to previous Land Cruiser Commercial
- New electrified powertrain introduced for 2026 featuring 2.8-litre diesel engine with 48V lithium-ion battery

The all-new Land Cruiser Commercial is a new halo model for the Toyota Professional range of light commercial vehicles.

The model is a factory conversion of the Land Cruiser passenger car that was introduced to wide acclaim and high customer demand a year ago. It combines formidable all-terrain capabilities with a practical load space and an equipment specification that reflects its prestige status, together with Land Cruiser's legendary quality, durability and reliability.

Positioned at the top of the Toyota Professional range, it provides an attractive option to customers who do not require the load-carrying capabilities or additional seats of the Hilux pick-up, but want the benefits of serious off-road performance, on-road poise and a wealth of comfort, safety and convenience features as standard.

The conversion process is undertaken at Toyota Manufacturing UK's Burnaston production facility in Derbyshire. It includes removing the rear seats, rendering the rear opaque with interior steel panel inserts and installing a full-height metal bulkhead with a mesh top section.

The load space is practical and hard-wearing with an edge-to-edge floor tray. It measures 1,090mm high, 1,685mm long and a maximum 1,286mm wide, giving a cargo capacity (VDA measurement) of up to 2,000 litres. Maximum payload is 810kg. The Land Cruiser Commercial can also tow loads up to 3.5 tonnes.

The range comprises a single model, a five-door, long wheelbase version. The equipment specification is at a higher level than the previous Land Cruiser Commercial, carrying across many of the advanced technology, comfort and convenience features of the passenger model, together with a comprehensive Toyota Safety Sense package of safety and driving assistance systems.

Specification highlights include 18-inch alloy wheels, a power-adjustable driver's seat, heated front seats, a power back door with opening window hatch, an auto-dimming rear-

view mirror, electronic parking brake and automatic dual-zone air conditioning. The multimedia system includes a nine-inch touchscreen and wireless smartphone integration with both Apple CarPlay and Android Auto.

The Commercial also adopts the Land Cruiser's new 2.8-litre diesel 48V electrified powertrain (from early 2026), matched to an eight-speed automatic transmission*. The powertrain has permanent all-wheel drive and selectable drive modes to suit the journey. Off-road performance systems include Crawl Control, Hill-start Assist Control and Downhill Assist Control. The driving assistance features include a Blind Spot Monitor, front and rear parking sensors and Safe Exit Assist.

*For further powertrain information please refer to the 2026 Land Cruiser press kit at [Land Cruiser - Toyota Media Site](#).

TOYOTA LAND CRUISER COMMERCIAL TECHNICAL SPECIFICATIONS

ENGINE		
Engine type		Four cylinders in-line
Displacement (cc)		2,755
Valvetrain		16-valve DOHC
Fuel injection type		Common rail
Compression ratio		15.6:1
Bore x stroke (mm)		92.0 x 103.6
Max power (bhp/DIN hp/kW @ rpm)		202/205/151 @ 3,000 – 3,400
Max torque (Nm/rpm)		500 @ 1,600 – 2,800
BATTERY		
Type		Lithium-ion
Capacity (Ah)		4.3
Max. output (kW)		8.5
TRANSMISSION		
Type		8-speed Direct Shift automatic
Ratios	1 st	4.413
	2 nd	2.808
	3 rd	1.950
	4 th	1.511
	5 th	1.274
	6 th	1.000
	7 th	0.793
	8 th	0.651
	Reverse	3.645
Final drive ratio		3.583
PERFORMANCE		
Acceleration 0-62mph (sec)		10.9
Max. speed (mph)		102
FUEL CONSUMPTION (WLTP)		
Combined cycle (mpg)		26.4
Fuel tank capacity (l)		80
EMISSIONS (WLTP) & INSURANCE		
Emissions standard		EURO 6E
CO ₂ emissions (g/km)		281
Insurance groups		43E
SUSPENSION		
Front		Double wishbone
Rear		Four-link rigid with lateral control arm
BRAKES		
Front		340mm ventilated discs

Rear	335mm ventilated discs
STEERING	
Type	Rack and pinion, electric power steering
Turns lock-to-lock	3.24
OFF-ROAD PERFORMANCE	
Approach angle (deg)	31
Departure angle (deg)	22
Minimum running ground clearance (mm)	205
DIMENSIONS	
Overall length (mm)	4,925
Overall width (mm)	1,980
Overall height (mm)	1,925
Wheelbase (mm)	2,850
Front track (mm)	1,664
Rear track (mm)	1,668
Front overhang (mm)	935
Rear overhang (mm)	1,140
Turning radius – tyre (m)	6.0
Turning radius – body (m)	6.4
Load space capacity (l)	2,000
WEIGHTS	
Kerb weight (kg)	2,330 – 2,435
Gross vehicle weight (kg)	3,150
Max. payload (kg)	810
Towing capacity – braked (kg)	750
Towing capacity – unbraked (kg)	3,500
