

TOYOTA URBAN CRUISER TIMELINE

2008	March	Toyota unveils a design preview of its Urban Cruiser the Geneva motor show. It is based on both the American Scion xD and Japanese Toyota ist models, and is developed on the same platform as the second generation Toyota Yaris.
2009	May	Urban Cruiser is introduced in the UK. Two versions are available – 2WD with a 1.33-litre VVT-i petrol engine and AWD with a 1.4-litre D-4D 90 diesel engine. The price range at launch is from £14,500 to £16,400.
2012	January	Minor changes are made to the interior, including a new seat fabric and chrome-finished bezels around the air vents. Pearl White is added as an exterior colour choice.
2012	December	Urban Cruiser is deleted from Toyota's UK model range. Total UK sales are 4,935.
2024	December	Toyota announces the Urban Cruiser name will return to the European market in 2025 for a new all-electric compact SUV.
